About Course

9 in1 course

PROJECTS

Facility to undergo various Hands-on Projects for Practical learning of the Course

PLACEMENT

100% Placement Assistance for 1-Year, post successful completion

E-LEARNING, Videos, LMS ACCESS

With abundant tools and techniques, video content, assessments, and more

HACKATHONS

Free Access to Hackathons and Competitions

TRAINING

120+ hours Live Online / Offline Interactive Classroom Sessions

INTERNSHIP

Internship Assistance to gain practical experience of the learnings

CERTIFICATION

Distinguish your profile with the Certification

BOOTCAMPS

Regular Bootcamps spread over the next 12 months

MEMBERSHIP

Get 1-Year Gold Membership of AchieversIT for the Certified UI ReactJS Course

Key Features

Qualified and Experienced Trainers

Our trainers are SMEs (Subject Matter Experts) who deliver realtime experience to the classroom.

State-of-the-Art Facilities

Our institute has modern facilities, including classrooms, labs, and equipment, to facilitate effective learning.

Flexibility and Accessibility

Our flexible schedules (Offline, Online, Hybrid), Convenient location and accessibility .

Student Support Services

Our eLearning and LMS portals have strong evidence for students support and progress.

Unlimited Batches

Students can attend unlimited batches for the comfortable learning experience.

Comprehensive Curriculum

Our up-to-date curriculum covers relevant topics and skills required in the industry.

Industry-Relevant Training

We provide Practical training, workshops, and capstone projects that improve students practical skills.

Placement Assistance

Our dedicated placement cell provides interview preparation, and resume building that enhances opportunities for internships and job placements.

10+ Soft Skills

Access to soft skills Courses to enhance Employability.

Course Curriculum

Module 1: Introduction To Web Development

- What Is Web Development?
- How Do websites work?
- Advantages Of Learning web development
- History Of Web Development
- Course And Projects Overview

Module 2: HTML Fundamentals

- HTML Introduction and Versions?
- Structure Of Webpage
- Html Core Concepts
 - Tags & Types
 - Elements & Types
 - Attributes & Types
- Adding And Formatting Texts, Title, Paragraph, Body
- Lists – Ordered/Unordered
- Images
- Forms & Attributes
- Links
- Tables & Attributes
- Anchor Tags
- Divs, Span

Module 3: HTML5 & Features

- Semantic Elements
- Audio and Video Support
- Canvas Elements
- Geolocation API
- Local Storage
- Responsive Images
- Web Workers
- Drag and Drop API
- Best practices of HTML

Module 4: Introduction to CSS

- Understanding the Role of CSS
- Types of CSS
- Basic Syntax and Selectors
- Properties and Values

Module 5: Box Model and Layout

- Box Model & Properties
- Display Properties
- Positions & Types
- Layout & Types
 - Flexbox & Properties
 - Grid & Properties
 - Flexbox VS Grid
- Best Practices of Layouts

Module 6: Styling Techniques

- Colors and Gradients
- Typography
- Backgrounds and Borders

Module 7: Responsive Web Design

- Media Queries
- Viewport and Units
- Meta tags
- Types of screen resolutions

Module 8: Advanced CSS Concepts

- Transitions and Animations
- Transformations
- CSS Best Practices

Module 9: Introduction to Bootstrap

- Introduction to Bootstrap
- Bootstrap Grid
- Tables, Images, Colors
- Alerts, Buttons
- Spinners, Cards

Module 10: Bootstrap Components

- Pagination, Drop Down
- Alerts and Badges
- Tooltips and Popovers
- Modals & Carousel
- Real-Time Project Using Bootstrap

Module 11: Introduction to JavaScript

- Overview of JavaScript
- Setting Up the Development Environment
- Basic Syntax and Data Types

Module 12: Control Flow and Functions

- Conditional Statements
- Loops
 - for, while, do-while loops
 - break, continue
- Functions
 - Declaring and calling functions
 - Function parameters and return values
 - Anonymous functions and arrow functions

Module 13: Arrays and Objects

- Arrays
 - Creating and manipulating arrays
 - Array methods (push, pop, shift, unshift, forEach)
 - Map(), filter(), some(), reduce()

- Objects
 - Creating and accessing objects
 - Object methods and properties
 - hasOwnProperty(), include()

Module 14: DOM Manipulation

- Introduction to the DOM
 - Document Object Model
 - DOM Manipulation Methods
- Event Handling
 - User actions with events
 - Event listeners and handlers
 - Event Bubbling & Capturing
- Manipulating Styles and Classes
 - Dynamically changing styles and classes
 - ClassList API

Module 15: Advanced JavaScript Concepts

- Prototypes
- Lexical Scoping
- Closures
- Hoisting
- Local Storage
- Ajax
- Sync vs Async
- Async & Await
- Promises
- FetchAPI

Module 16: Es6 features

- Es5 Vs Es6 Vs Es7+
- let and const
- Arrow functions
- Template Literals
- Destructuring
 - Array
 - Object
- Rest & Spread Operators
- Classes
- Constructors
- Modules
- WeakMap and WeakSet

Module 17: Realtime Project Implementation

- Define Clear Objectives
- Project Planning
- Utilize Project Management Tools
- Realistic Timelines
- Regular Monitoring and Evaluation
- Training and Skill Development

Course Curriculum

Module 18: Introduction to React.js

- Overview of React
 - Introduction to React and its role in web development
 - React as a declarative and component-based library
- Setting Up the Development Environment
 - Installing Node.js and npm
 - Setting up a React project using Create React App
- Understanding JSX
 - Introduction to JSX syntax
 - JSX expressions and embedding JavaScript in JSX

Module 19: Components and Props

- Creating Functional Components
 - Understanding functional components
 - Writing and rendering a simple component
- Class Components and State
 - Introduction to class components
 - Managing component state with useState
- Props and PropTypes
 - Passing data between components using props
 - PropTypes for type checking

Module 20: Component Lifecycle

- Lifecycle Methods (Class Components)
 - componentDidMount, componentDidUpdate, componentWillUnmount
 - The concept of side effects
- React Hooks
 - Introduction to Hooks (useState, useEffect, useContext, etc.)
 - Managing state and side effects in functional components

Module 21: Handling Forms and Events

- Handling Forms in React
 - Controlled components
 - Form validation and submission
- Event Handling in React
 - Handling user interactions with events
 - Common event handling patterns

Module 22: Lists and Keys

- Rendering Lists
 - Mapping data to create dynamic lists
 - Understanding keys and their importance
- Dynamic Styling and CSS Modules
 - Dynamic styling in React
 - Using CSS Modules for scoped styles

Course Curriculum

Module 23: Routing in React

- React Router
 - Introduction to client-side routing
 - Configuring routes and navigation

Module 24: State Management

- State Management with Context API
 - Managing global state with Context
 - Context Providers and Consumers
- State Management with Redux (Optional)
 - Introduction to Redux for more complex state management
 - Actions, reducers, and the Redux store

Module 25: Advanced React Patterns

- Higher-Order Components (HOC)
 - Understanding and creating HOCs
 - Use cases and examples
- Render Props
 - Concept of render props
 - Implementing render props in components

Module 26: Hooks in Depth

- Custom Hooks
 - Creating and using custom hooks
 - Encapsulating logic in custom hooks
- Effect Hooks
 - More advanced usage of the useEffect hook
 - Dependencies and cleanup in useEffect

Module 27: Testing in React

- Unit Testing with Jest and React Testing Library
 - Setting up Jest and React Testing Library
 - Writing tests for React components

Module 28: Free Value Added Courses

- Git Hub
 - Git Add, Git Branch Create
 - Git commit etc
- Resume Building
- Project Management Tool
 - JIRA
 - Trello

AchieversIT Training Methodology

Live Projects	Live projects are implemented throughout the training duration to cultivate experiential learning for participants. This facilitates a more profound comprehension of concepts and provides in-depth practical insights.
Unique Pedagogy	Leveraging a combination of methods following our distinctive S.O.L.I.D pedagogy, participants can extract targeted, action-oriented outcomes from the training.
End-to-End Engagement	Throughout the training, participants will actively participate in reverse presentations, group activities, brainstorming sessions, and hands-on experiences involving both statistical and non-statistical tools. The emphasis is on fostering value creation.

Certification Process

1

Counselling

Consult one of the counselors and get into the Right Batch. Register yourself for the Certified UI with Angular Developer Course

2

Attend the training

Attend the training from experience trainers. Get trained by the industry experts

3

Submission of Projects Assigned

Get projects, and assignments and submit them. Get evaluated by the trainer and enhance your hands on experience

4

Complete the Training Course

After completing the course attend mock interview and interview preparation session

CERTIFICATE OF AWARD

We hereby present this certificate to

Kevin Woods

For his exceptional leadership demonstrated as a participant in the Leaders of the World Competition held in New York, US on January 1st 2027.

Learning Benefits

UI design directly impacts UX. Learning UI principles enables you to create interfaces that are intuitive, engaging, and user-friendly.

Understand the importance of consistency in design across different devices and platforms for a seamless user experience.

Gain the skills to create visually appealing designs, considering color schemes, typography, and layout aesthetics.

React.js enables the creation of declarative user interfaces, making it easier to understand and debug code.

Learn tools and techniques for creating prototypes and wireframes, allowing you to visualize and iterate on design concepts.

Gain proficiency in managing state in React components, enabling dynamic and interactive user interfaces.

Understand the benefits of a component-based architecture, allowing for modular and reusable code.

Benefit from a large and active community, with abundant resources, libraries, and tools available to enhance your React.js development.

Students Testimonials

Excellent Teaching

I am so grateful for the excellent training I received! The trainers made my learning easy and practical. They helped me understand difficult concepts. I feel confident and ready for whatever comes next. Thank you for the amazing experience. The best part here is 1-1 mentorship after the training provided for me that made to crack many interviews.

Awesome Materials

Thanks to the whole team of AchieversIT for providing the best materials which helped me to crack interviews. I solved most of the interviews by referring to the material given by the AchieversIT team. Thanks a lot for helping me in all the stages of my job hunt. Special thanks to Murali sir for his timely assistance. Even after placement, this team is helping to solve my project issues. I never regret of choosing this place for learning.

Well Supported

A good place to learn Manual and automation testing. Mentors are highly skilled and knowledgeable. I found the best part here at AchieversIT is the whole team is ready to support us whenever we require it. The instructors are well-supported in whole programs. The course concepts that I learned from this institute were so helpful in cracking interviews and helped me solve the problems while working on the projects.

Happy for @Team

I am happy to share my experience with this institute, I enrolled in Python full stack and worked on 3 real-time projects. While working on projects gained a lot of practical experience, and my mentor helped to implement real-time scenarios. The interview preparation team helped me and my friends to prepare for the job. We all enjoyed the services given by Mr Murali and the team. Thanks a lot for training us well appreciated.

Guided Me well

Great Institute to kick start our career in the field of web and UI development. All the trainers are from industry backgrounds and are assigned real-time projects for practical learning. Every day we can interact with the development team and clarify our doubts instantly so that it's easy for us to move to the next step. They help me prepare for the interview even in a recession. Thanks for the placement provided.

Liked their Mentorship

My friend referred me to join for web development with a Manual + automation selenium in AchieversIT BTM. My trainer Jyothish had excellent key skills and a solid IT background. His training was excellent with good interaction. He trained very well with real-time scenarios based on live projects. Murali always gives good suggestions for each student. Thanks a lot for helping to get a job in IT company. Overall experience was very informative and knowledgeable.

AchieversIT is one of the best Training institutes for REACT Front-End course in Bangalore. I took ReactJS course. It is 3 months course. They started with HTML, CSS, Bootstrap, Java script and React. Trainers are good and we can approach them any time for any sort of doubts. For me Murli sir , Siva and Chaitanya helped me through out the course. They will also conduct mock interviews after completing the course.

I recommend AchieversIT institute for React course.

AchieversIT is one of the best Institutes in Bangalore for Web Development.

Murli sir is the head of the Institute. He guides the student very well in what's best for the them and helps in any way possible.

Provides a great environment for all the students.

They have experienced trainers for almost all the technologies such as front-end courses, reactjs, nodejs, and many other courses.

Siva sir, Chaitanya sir trained and helped me for improving my front-end basics.

Hi,

As i was looking for best training institute with placement support, my friend suggested me to join AcheiversIT institute.. BTM,Bangalore. I had joined for React js Course.. I got placed in React js domain... with very good package And my cousin brother also joined this institute for UI Developer Course and he is fresher and a degree graduate .. he also got placed recently.. There are All Experienced trainers available here you can clarify all doubts at that time it's self. And MURALI sir always guided me. The training is purely based on real time projects, That may help you at the time when work on real time work environment. I suggest you guys to join this institute... This is very good institute for learners with Good staff.

Thank you Achiver's IT...Thank you MURALI sir.

Positive: Communication, Professionalism, Quality, Value

I m happy to share my Experience with Achievers IT. Firstly I will thank to Murali sir and Moanoj sir, the way how they teach me with real time examples. When I was in Bangalore, I was searching for React js. Luckily I found Achievers it in BTM Layout. I did a research about it and joined. Coming placement support, they are real good at placement support with good packages.

Positive: Communication, Professionalism, Quality, Value

First of all i would like to thank you murali sir for conducting the classes practically and making students aware of advanced technologies . I came to know about training institute through my friend . It was fun learning new things and working on the Home work which students are asked to do after each session and topic covered.

Positive: Professionalism, Quality

Best institute for freshers and experienced to enhance their skills. Siva sir and Murali sir thought us the best coding and helped us throughout the training period after that...

Planning to join my brother as well for the coaching .

All the best to the team and keep up the good work by teaching students in the best way.

Positive: Communication, Professionalism, Quality, Value

I am exited to share my experience with AchieversIT training institute Bangalore,as i was a mechanical engineering student I was in confusion to choose the right course and also visited many institutions to get the right path but different people suggested different courses,got confused.Finally I met Murali sir at AchieversIT training institute Bangalore then he suggested me ui development with React js course and trained to from basic level to advanced level that's where today I am in software engineer position with good career path. Thank to everyone who supported me during entair journey. Whole team of AchieversIT done a great job.Keep doing the great and special thanks to Murali sir,Siva sir for guiding me all the concepts clearly.

Positive: Professionalism, Quality, Value

As we currently live in the USA, I was looking for a web development course for my wife and I found this online course from AchieversIT. This is an incredible course to lean the web development. Murali is an amazing instructor. He is an out-and-out web development specialist from developer to an architect to a freelancer. He designed the course very systematically that students from non-coding background can also learn it enthusiastically. He starts the course right from the beginning and built it up to advanced. I'd highly recommend this course to anyone who wishes to learn Web Design and Development.

Positive: Quality

I'm very much happy to share my experience with AchieversIT training institute in Bangalore. As I was graduated from mechanical engineering stream and I don't know what to do next. My brother in law suggested me to discuss with Murali sir. Before I met him I had many confusions and doubts. Murali sir helped to understand what is the right for me and trained me on ReactJS and UI development. I must be thankful for him for his support and guidance and also I must be thankful to whole team AchieversIT for their continuous support during training period. Once again thank you Murali sir ❤.
